

MySQL Week 7 Exercises

Instructions

Points possible: 75

URL to GitHub Repository: <https://github.com/ssteve1/Week7--MySQL-Assignment.git>

URL to Public Link of your Video: <https://youtu.be/bcw5QP6Ff-g>

Instructions:

1. Follow the [Exercises](#) below to complete this assignment.

- In Eclipse, or an IDE of your choice, write the code that accomplishes the objectives listed below. Ensure that the code compiles and runs as directed.
- Create a new repository on GitHub for this week's assignment and push your completed code to this dedicated repo, including your entire Maven Project Directory (e.g., mysql-java) and any .sql files that you create.
- Include the screenshots into this Assignment Document indicated by: 
- Create a video showcasing your work:
 - In this video: record and present your project verbally while showing the results of the working project.
 - Easy way to Create a video: Start a meeting in Zoom, share your screen, open Eclipse with the code and your Console window, start recording & record yourself describing and running the program showing the results.
 - Your video should be a maximum of 5 minutes.
 - Upload your video with a public link.
 - Easy way to Create a Public Video Link: Upload your video recording to YouTube with a public link.

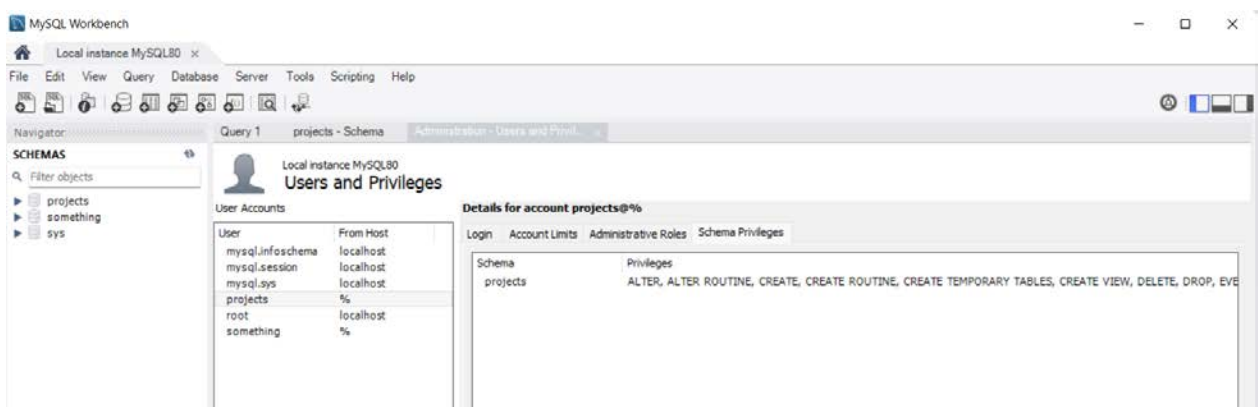

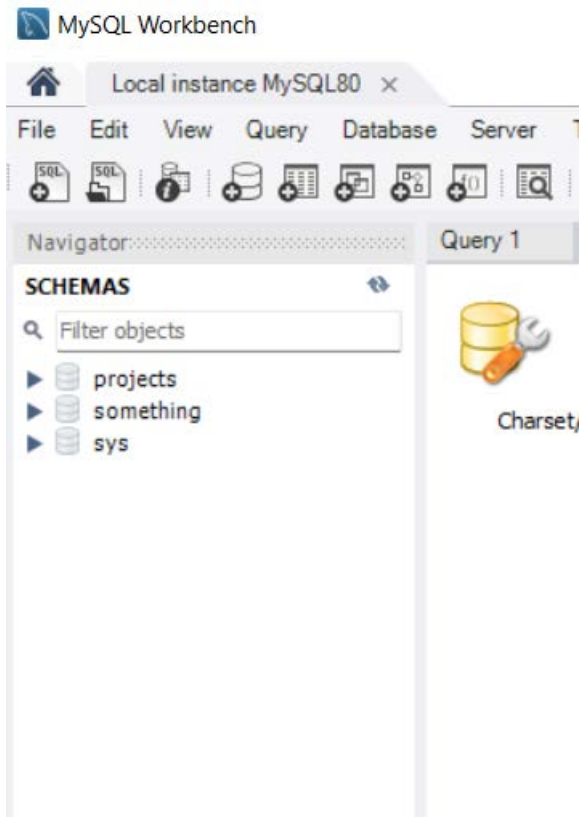

2. In addition, please include the following in your Coding Assignment Document:

- The requested screenshots, indicated by: 
- The URL for this week's GitHub repository.
- The URL of the public link of your video.

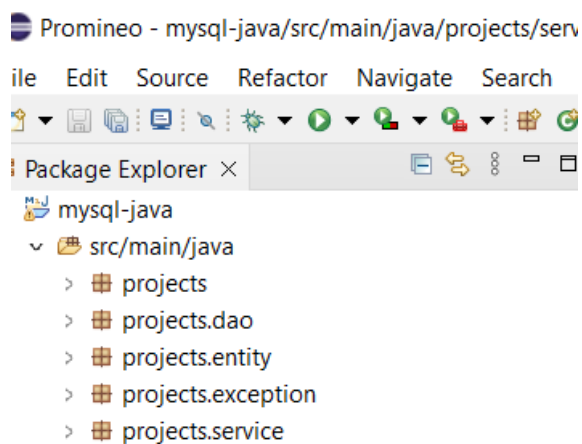

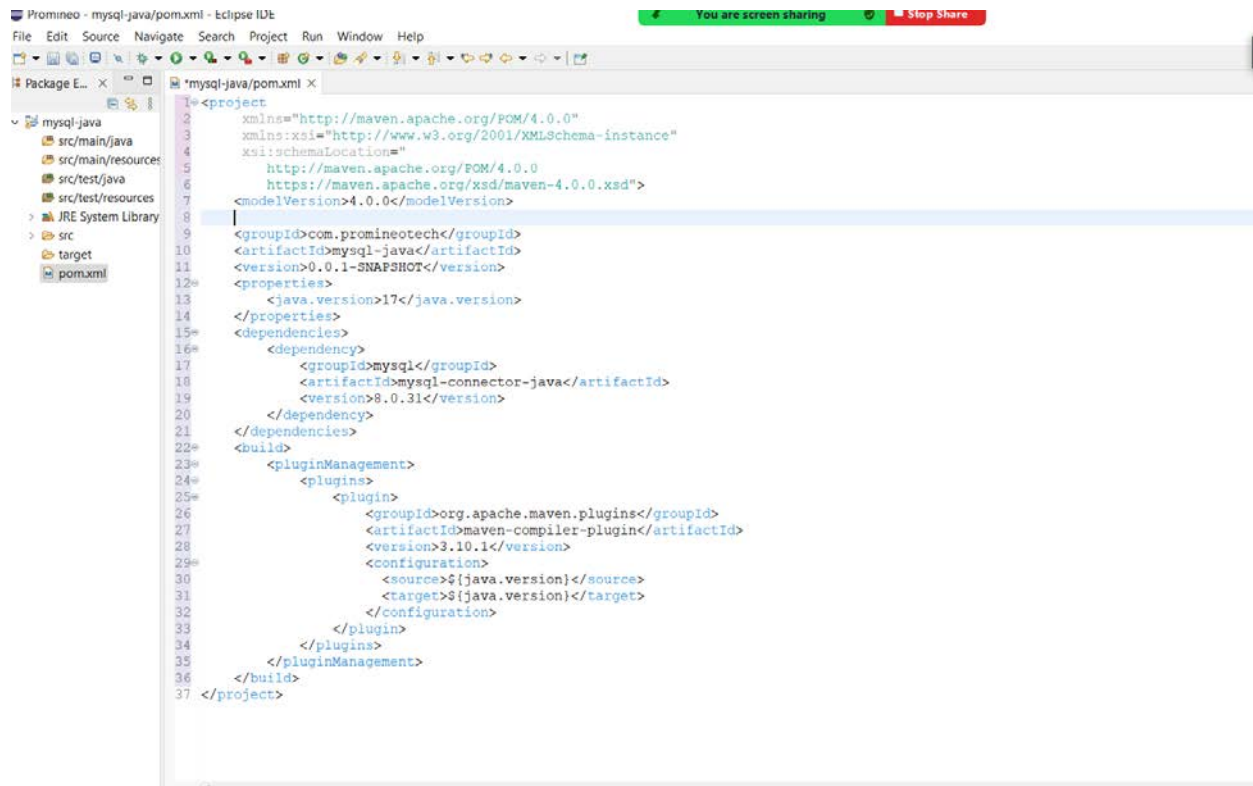

3. Save the Coding Assignment Document as a .pdf and do the following:

- Push the .pdf to the GitHub repo for this week.
 - Upload the .pdf to the LMS in your Coding Assignment Submission.
-

MySQL Week 7 Exercises

The screenshot shows the Eclipse IDE interface. The Package Explorer on the left displays the project structure for 'mysql-java', including packages like 'projects', 'projects.dao', 'projects.entity', 'projects.exception', 'projects.service', and 'src/main/resources'. The main editor window shows the code for 'projectsApp.java'.

```
1 package projects;
2
3 import java.sql.Connection;
4
5 import projects.dao.DbConnection;
6
7 public class projectsApp {
8
9     public static void main(String[] args) {
10
11         Connection connection = DbConnection.getConnection();
12
13     }
14
15 }
16
```

The Console window at the bottom shows the output of the application:

```
<terminated> projectsApp [Java Application] C:\Program Files\Java\jdk-17.0.2\bin\javaw.exe (Oct 23, 2022, 3:20:34 PM - 3:20:35 PM) [pid: 20924]
Connected!
```
